

Take Charge of Your Own Survival & Empowerment!

Cheryl Arnold Moseley, RN, is a passionate humanitarian, speaker & award-winning photographer– showcased by her **Eye of the World**. Cheryl's unique perspective on the world was inspired and fostered by her courageous mother and resilient father, blind from birth, a Chiropractor. Their influence led her to adventurously explore more than 80 countries since the mid-1960's. After becoming a nurse, she traveled extensively throughout the world for 40 years, living abroad, often two years at a time. She has extensively studied Aikido, yoga, and various types of meditation. Cheryl volunteered as a nurse and did health education in villages throughout Asia, including Afghanistan and Himalayan villages in Nepal and India. She also studied with the Dalai Lama in India and worked with Mother Teresa several times beginning in 1973 – before either was awarded the Nobel Peace Prize.
